

Hard Shell

Tru-Vent Concealed

Overview

This “self-ventilating” carrier is designed to allow trapped heat and moisture to escape away from the body by means of specifically engineered “vents” on the strike face of carrier.

Features

- Unique “Vented” Carrier Design Allows Air Flow Away From Body Helping Dissipate Core Temperature and Reducing “Armor-Fatigue”.
- Cool to the Touch Micro-Fiber Outer Fabric
- Antimicrobial Body Side Fabric
- 8 Way Adjustable Straps Allow For Greater Comfort and Individualized Adjustments
- Internal Trauma Plate Pocket Accepts Soft or Hard Trauma Plates

- Suspended Panels Prevents Armor Bunching and Creasing Thus Increasing Comfort and Protection

Options

- Level II NIJ .06 Certified Ballistic Panels
- Level IIIA .06 NIJ Certified Ballistic Panels

Colors

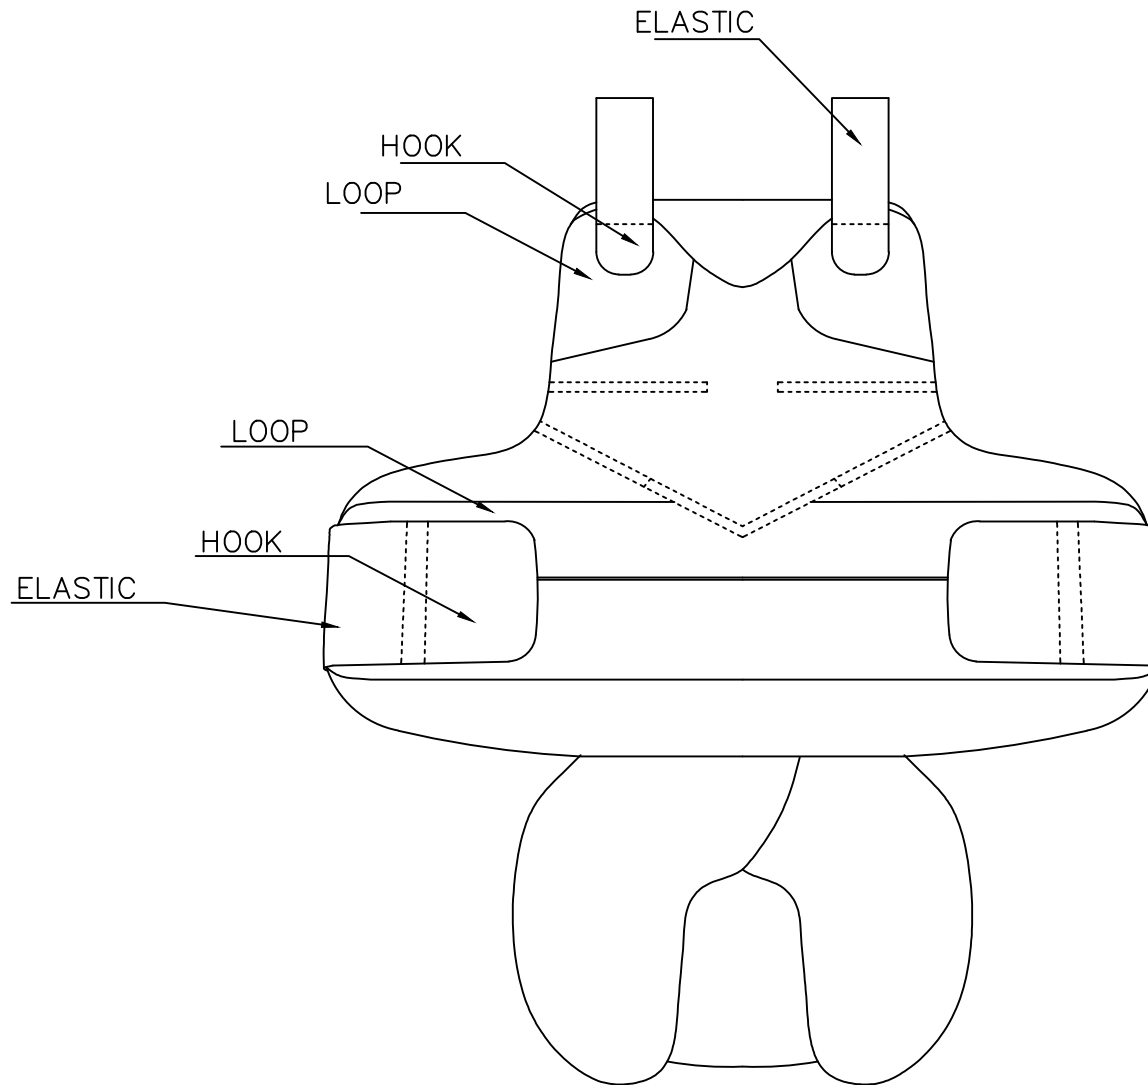

- Black
- Midnight Blue
- Navy
- White
- Tan
- Brown
- O.D. Green
