

Hard Shell

Versa Operational System Carrier

Overview

The Versa Carrier System, VOS, is a systems approach to utilizing the wearer's concealed ballistic panels. It allows the wearer to utilize their current HSUS concealed panels in an over-the-shirt design with a variety of mission specific pouches.

Features

- A Low Profile Systems Approach to First Responder, Law Enforcement and Military Operator Requirements.
- Converts Hard Shell Full Coverage Concealed Armor Panels into an Over the Shirt, Mission Specific Design
- The Rapid Attachment Point System (RAPS) Allows the User to Utilize Inter-Changeable, Mission Specific, Pre-Loaded Personal "Kits"
- High Abrasion Nylon Outer and Inner Fabrics Allow For Durability and Ease of Maintenance.
- Accepts Full Complement of Hard Armor Shapes, Designs and Sizes

Standard Available "Kits"

- First Responder

- K-9/Tracker
